SEC Starts First NC Shake Shack

Shake Shack selected SEC to build its first North Carolina restaurant at Park Road Shopping Center.

"When we select General Contractors, we look for companies that are local to the area and familiar with local building practices, code requirements and subcontractors," says Lou DeAngelis, Senior Director of Construction and Facilities at Shake Shack.

"We also look for contractors that are big enough to handle the schedule and complexity of demands of our Shacks, but small enough to give us the attention and day-to-day, hands-on management that we need. SEC met those criteria, and we look forward to partnering with them as we bring our first Shack to Charlotte."

Shake Shack is a critically acclaimed, modern day "roadside" burger stand known for its 100% all-natural Angus beef burgers and chicken sandwiches (antibiotic-free and no hormones added), griddled flat-top dogs, fresh-made frozen custard, crispy crinkle cut fries, beer, wine and more. A fun and lively community gathering place with widespread appeal, Shake Shack has earned a cult-like following around the world. There are currently more than 135 locations across 18 U.S. states plus D.C. and 12 countries.

"We are excited about this project and pleased that SEC has been chosen to construct the new building," says David Fry, SEC President. "We're also grateful for the confidence in our firm that Edens demonstrated by recommending SEC for the project."

Edens owns Park Road Shopping Center.

Construction begins this month

SEC General Contractors Inc. is a general contractor with an unlimited license and a utilities contractor in both North and South Carolina offering over 15 years of experience.
